Done: Go To Dashboard

We found messages from the following people in the label Nebit. Select whom you want to include in your project, what their roles are, and what kind of permissions you'd like to give them to this project.

By default we set all access permission to see future conversations only, since this label contains existing conversations. You can decide which individual conversations and files to share with whom later on.

Note that if you give someone access to previous conversations, you will be sharing with them all existing messages and files in this label.
